DISCLAIMER

Allowed Products: At TakeProfitTrader LLC, we empower our traders to navigate the dynamic world of futures trading. Our platform grants access to an extensive range of futures products exclusively listed on esteemed exchanges, including CME, COMEX, NYMEX, and CBOT. It's important to note that our program and platforms do not support or facilitate trading in stocks, options, forex, cryptocurrencies, or CFDs.

Trading Test Disclaimer: The evaluation program is a challenging assessment designed to simulate real market conditions. It is important to note that successfully passing the Trading Test requires a high level of skill and experience in trading. Our Trading Test is challenging, and between January 1, 2025, and December 31, 2025, 36.22% of all Trading Tests were successfully passed, with traders attaining the PRO account within this timeframe. It's worth mentioning that even seasoned traders often find this challenge demanding. As such, we recommend the Trading Test primarily for those with substantial trading experience.

Information Disclaimer: Please be advised that all content disseminated by TakeProfitTrader LLC and its affiliated entities is intended solely as general information. None of the information provided by TakeProfitTrader LLC and its affiliated entities should be construed as (a) investment advice, (b) an offer or solicitation to buy or sell any security, or (c) an endorsement, recommendation, or sponsorship of any particular security, company, or fund. The utilization of information available on the TakeProfitTrader's websites is undertaken at your own discretion, and TakeProfitTrader LLC, along with its partners, representatives, agents, employees, and contractors, disclaims any responsibility or liability for the use or misuse of such information.

Futures, foreign currency, and options trading contain substantial risk and is not for every investor. An investor could potentially lose all or more than the initial investment. Risk capital is money that can be lost without jeopardizing one's financial security or lifestyle. Only risk capital should be used for trading and only those with sufficient risk capital should consider trading. Past performance is not necessarily indicative of future results.

CFTC Rules 4.41 - Hypothetical or Simulated performance results have certain limitations, unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not been executed, the results may have under-or-over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profit or losses similar to those shown.

TESTIMONIAL DISCLOSURE: TESTIMONIALS APPEARING ON TAKEPROFITTRADER.COM MAY NOT BE REPRESENTATIVE OF THE EXPERIENCE OF OTHER CLIENTS OR CUSTOMERS AND IS NOT A GUARANTEE OF FUTURE PERFORMANCE OR SUCCESS.
